# What comes with your NOOK

# 2

The small compartment at the bottom of the packaging with the silver NOOK logo contains the Power Adapter and the USB Cable.

Open the lid from the top.

# Charge your NOOK

# 3

You must fully charge your NOOK before using it the first time.

Plug your NOOK into a wall outlet using the Power Adapter and USB Cable included with your NOOK.

You can use your NOOK while it charges. The yellow charging indicator lights up while charging. When the light turns off, your NOOK is fully charged. Typical charging time is approximately 3½ hours when charging from a wall outlet.

# Charge your NOOK

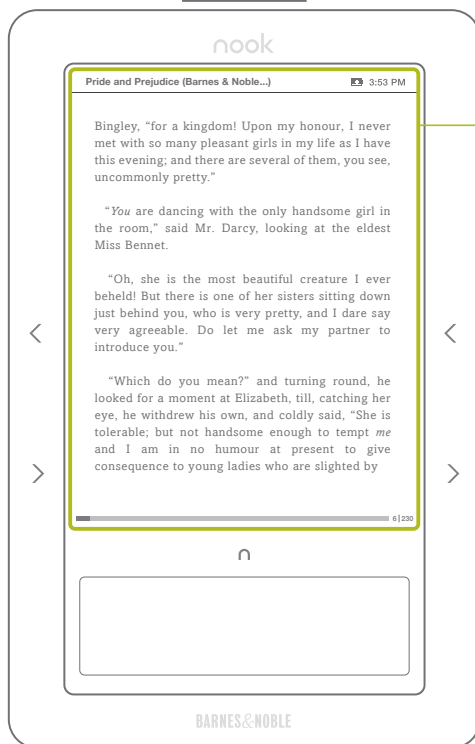

## 3 continued

- **Important note:** DO NOT turn off your NOOK after you have connected it to a wall outlet or computer to charge. This will stop the charging process. When you connect it to the wall outlet, your NOOK will automatically turn on and then go into sleep mode after the preset amount of time. The first time you charge your NOOK, or if your NOOK's battery power is extremely low, then it may take up to 30-minutes before your NOOK turns on and the yellow charging indicator lights up. This is normal.

You can also charge your NOOK by connecting it to a USB port on your computer. Please refer to your User Guide for additional instructions about this feature.

# Reading screen

# 4

## Reading Screen

This is where you read your eBooks, newspapers, magazines, PDF documents, and more. You can also shop Barnes & Noble's eBookstore for great new titles.

The reading screen is not touch sensitive. Use the color touchscreen below and the page turn buttons on the left and right sides of the reading screen to navigate on the reading screen.

The reading screen uses E Ink® display technology that gives crisp images without glare, like a printed page. But, like paper, it cannot be read in the dark and requires an external light source, like sunlight, a well-lit room or a book light.

## Status Bar

A status bar at the top of the reading screen displays the cellular or Wi-Fi signal strength, battery charge, and time.
